ABOUT US

Graphic Design Creative Service Proposal

So Who Are We...?

We are full-service marketing communications agency that assists its clients in successfully bringing their unique voices to the marketplace. We think strategically, then turn strategies into actions that deliver core messages to target constituencies in any platform—from digital to physical. A small agency with big-project experience, we work hard with clients from consumer goods to construction. We're effective, efficient, but never boring.

Our full-service marketing communications capabilities, our clients gain access to a complete range of services under one very convenient roof.

Our Customized Project Team Concept

One of the keys to our success is we customized team concept. We give you access to some of the top people in our industry: strategic planners, graphic designers, photographers, programmers, illustrators, creative media buyers, analysts, social media experts, printers, videographers, producers, and more—all working to make your project a success. But not every project needs all of this talent. So we custom pick the exact team that suits your project—and you pay only for the talent you need.

What Can We Do For You?

- Develop and produce integrated marketing campaigns
- Research and plan communications strategies
- Develop positioning strategies
- Design brand identities and taglines
- Launch new products and services
- Plan media—online and off
- Create and produce TV and video
- Built awesome websites
- Design and produce successful print advertising
- Design and produce print collateral including annual reports, brochures, promotional materials, and corporate communications of all kinds
- Create social media plans & social media buzz
- Engage our clients' customers through cutting-edge augmented reality
- Design and produced environmental graphics and displays
- Save clients' money by streamlining their processes
- And generally helped clients succeed at their marketing communications.

We built all these things and more for our clients. We can build what your project requires, too.

Yet what we excel at—and one of the things we're known for—is building relationships. So we build relationships with our clients, with consumers, and with a wide variety of constituencies.

We're ready to start building a relationship with your organization now.

On Finalization and signing off of the designs, the design and original file will be submitted to client for their record. We keep the designs with is for Max 1 years.

The Duration of the entire assignment will be based on the type of assignment.
