Engineering Excellence

Bhagirath®
GROUP COMPANY

10+ Years of experience of
serving global trade &
logistics solutions

**ONE STOP SOLUTION
FOR OIL & ENERGY**

ABOUT US

CARPE INDUSTRIAL SYSTEMS

“A BHAGIRATH GROUP COMPANY” is at the heart of the world's energy flows. Every day we use our expertise and logistical networks to distribute energy around the world, efficiently and responsibly.

For over more than a decade CARPE has served the world's energy markets, trading over million barrels of crude oil and petroleum products and delivering energy products to countries worldwide. Our customers include national oil companies, multinationals, leading industrial and chemical companies and airlines. We deliver the products they need on time and to specification by sourcing and managing the movement of energy through the relevant infrastructures.

Supply Chain Management - Trading, Logistics and Distribution:

The core of our business is the distribution of energy. The combination of our expertise and our presence in markets globally enables us to identify and source the best solutions for our clients. Our business is built upon long-standing relationships with producers, refiners and industrial customers.

CARPE's Market leading position is built on decades of expertise and careful risk and financial management. A global reach and extensive networks enable us to offer our customers quality and reliability. We have a long history of building partnerships worldwide, working collaboratively to find optimal solutions.

Important **THINGS**

Responsibility We are mindful of the risks associated with handling energy. Our assets operate to international HSE standards and we expect the same of our partners throughout the energy chain. We seek to conduct our business in line with the principles of the UN Global Compact and to work with partners who share our commitment to high standards of operation.

OPERATING GLOBALLY

EUROPE

From a number of key locations around Europe, our European operations work closely with offices worldwide, supplying crude and products to refineries, industrials and retail networks. As well as having a significant physical presence in key energy hubs within the region. We also supply to power sector and are involved in LNG, gas and power markets as well.

THE AMERICAS

Representing and contributing to the world's consumption and to major producer, the U.S. market is increasingly influential. CARPE has a long-established presence across the Americas. We manage trade flows within, as well as to and from, the continent. Our extensive network enables us to optimise the flow of crude oil and petroleum products. We are also a participant in other key markets, including power and gas.

MIDDLE EAST

Our associates office in Dubai UAE and being us having more than 2 decades history of working closely with national oil companies across the region and serving world demands and supply chain from UAE. We serve both regional and long haul markets, including Africa.

AFRICA

We have a fast growing footprint in Africa. We work closely with national oil companies across the continent to help them optimise the value of their crude oil and to provide an efficient and reliable supply of key products to these growing markets.

ASIA PACIFIC

From our Asian offices, we serve the energy needs of customers across the region. Our global trading network enables us to source the optimal feedstock for the region's refiners, supply industrial companies and ensure the timely delivery of petroleum products to growing consumer markets.

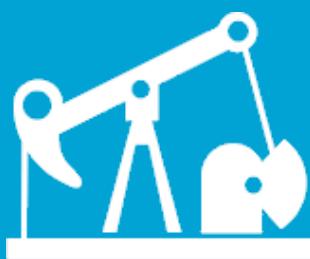

T TRADING PORTFOLIO

We sit at the heart of global energy flows, moving energy products from source to customer as quickly, responsibly and cost-effectively as possible.

Our business is founded on the long-term relationships we've built with our customers, on our expertise, market understanding and reputation for reliably delivering the required products, on time and to specification. With some offices worldwide and a network of teams globally, we understand that every market is different. We work with our customers to identify and develop solutions which work best for them, helping them manage physical risk and optimise opportunities.

Our trading presence is underpinned by a complementary infrastructure: supply chain management, storage, distribution and a marketing network across seven continents. In all our physical operations we seek to work with partners which share our commitment to high international standards of operation. The infrastructure support, upon which we rely, from ships to jetties and storage, is subject to our due diligence processes.

CRUDE OIL

Our crude trading business has longstanding relationships with producers and refiners worldwide. We help the former to effectively market and distribute their daily production, and the latter to secure a reliable and consistent supply of the right quality crude at the right time. We are capable to transact in different grades of crude oil in locations around the globe. We are active in all major centres where crude is produced, refined and traded, enabling our customers to benefit from critical intelligence and access to the most appropriate market. As a physical trader, we can deliver crude anywhere our customers require.

PARTNERING PRODUCERS

Our marketing team combines specialist knowledge with global expertise. Over many years we have established long-term relationships with national oil companies, oil majors and independent producers. We use our expertise in managing transportation, barge, train, truck and all sizes of vessel to efficiently and reliably transport crude to refiners worldwide.

WORKING WITH REFINERS

We take the time to understand the specific requirements and preferences of refiners worldwide and have a long track record of consistently and reliably sourcing the right feedstock to meet our customers' needs at the right time.

SERVING THE GLOBAL MARKETS

Worldwide, our market leading position is built on a presence throughout the supply chain, as well as the major trading hubs.

In the Americas, we are involved in all segment markets. Across the continent, we have access to proprietary and leased energy infrastructure, from tanks to railcars and pipelines, which enables us to source and transport crudes to market, from production locations to major market hubs.

MIDDLE DISTILLATES

For well over a decade we have been physically involved in the global middle distillates markets. Middle distillates markets, which include various product grades such as jet fuel, kerosene, gas oil and diesel, are subject to daily global structural imbalances in supply and demand.

“CARPE's specialist teams, across each product grade, have expertise in the full chain, allowing them to provide efficiency and add value to suppliers and customers alike. “

A profound local and global knowledge, as well as flexible managerial skills, are required to develop supply chains in order to respond swiftly to these imbalances.

BIOFUEL

We play an active role in the marketing and distribution of both biodiesel and bioethanol. Having coverage globally, our offering for bio and agricultural commodities is vast and our knowledge and understanding of the challenges faced by our partners enables us to offer optimum solutions to both producers and consumers .

GASOLINE

We supply customers worldwide with the specification appropriate for their jurisdiction. Our portfolio includes a range of logistical assets from our tied associate group, from gasoline tankers to a network of leased storage capacity in strategic locations (on case to case basis), enabling our customers to benefit from operational flexibility. We work with refiners, state-owned oil companies, marketers and distributors across the globe. We are a significant and long-standing supplier to the gasoline market.

FUEL OIL

We are an established fuel oil trader, with storage support facilities in strategic locations including Rotterdam, UAE, Singapore, India and America.

We add value for our fuel oil customers in numerous ways, such as deploying blending capabilities to ensure we meet the requirements of fleet owners and refiners. We also use our expertise and market reach to help sellers optimise the value of their streams.

NAPHTA

Naphtha liquids are a key feedstock for gasoline and are widely used within the petrochemical and chemical industries.

We lift product from all producing regions including the Middle East, India, Russia and Africa, and supply petrochemical companies in East Asia, Europe and North and South America.

PET COKE

We have an expanding presence in Pet Coke in market globally.

We work with refiners around the world to source the required grade and supply to various Industries across the world.

BITUMEN

We have an expanding presence in bitumen (asphalt) market globally.

We work with refiners around the world to source the required grade of bitumen.

COAL

We are capable to deliver coal to our customers in Asia, Europe, Australia, America and Far East etc. We trade, and have and will establish long-term supply contracts with mining companies in various countries on case to case basis.

Our diverse supply base enables us to meet a wide range of customer requirements in terms of specific origins and grades, for both steam coal and anthracite.

LIQUID PETROLEUM GASES (LPG)

We are active participant in the global LPG market. We trade in LPG having annual supply contracts, enabling refiners to provide a reliable, competitively priced supply line to LPG distributors, petrol companies and utilities.

NATURAL GAS

We have been trading natural gas. Our primary focus is the physical activity of gas transportation, storage, regasification and the supply of LNG which enables us to make and take deliveries worldwide.

Our customer base shall be broad, working with producers, importers, distributors, utilities and industrial end-users. We provide flexibility to our customers, optimising their domestic and cross-border flows, as well as ensuring security of supply.

LIQUIFIED NATURAL GAS (LNG)

We have been active within the LNG sector as well, exploring to service supplies to the customers across five continents and deliver LNG across the world from our global sources. We have experience to deal independently, offering customers unique expertise in the management of physical gas deliveries, as well as a comprehensive understanding of the worldwide LNG market.

Our prospect of LNG business is integrated with our global natural gas, power, coal, pet coke, fuel oil and LPG trading business enabling us to anticipate and adapt to market movements and to respond to our customers' ever evolving needs.

SHIPPING

Shipping is at the core of CARPE's Business. The efficient and timely delivery of goods is an integral part of what we do and, at any one time, we have numbers of vessels at sea transporting our cargoes. As a leading trader of energy worldwide, we have a unique insight into the world's shipping flows and trends.

We offer global coverage and an efficient and reliable service to its customers which include many oil companies.

CARPE - Trading, Shipping & Logistics Verticals

Domestic and International Trading of Agro Commodities and Industrial Fuel Oils

- Global Procurements
- Processing & Trading of:
 - Bio Fuels
 - Industrial Fuels
 - Grains
 - Sugar
 - Edible Oil
 - Oil Seeds
- Our Team Works directly with thousands of farmers across India

Multimodal Movement of Domestic Cargo (Rail /Road / Sea)

- Door to Door Containerised Movement of Bulk (Dry / Liquid) and Packed cargo
- FCL Consolidation for East to West and West to East
- Associate business partners with major CTOs and IR

Frieght Forwarding

- Air Frieght
- Sea Frieght
- Buyers Consolidation
- ODC cargo handling
- Custom clearance

Crane Rentals, ODC Cargo Handling and Transportation

- Crane Rentals
- Equipments Rentals
- Maintenance / Technical expertise
- ODC cargo handling and transportation

Contract Logistics

- 3 PL Services
- ICD Transportation (Factory Stuffing and De-Stuffing)
- Transport booking services

Project Logistics

Our extensive experience and high-end equipment like portable bridges, pontoon ferries, girder bridges, motorized and hydraulic jacking equipment to increase installation efficiency and site-handling capabilities for your diverse projects. Even for out-of-gauge or over-dimensional cargo and highly complicated, critical load solutions, our project logistics team will bring you path-breaking, turnkey, end-to-end logistics solutions

WE REDUCE AND CONTROL CUSTOMERS TOTAL COST OF OWNERSHIP

ROAD TRANSPORT

We offer both unmatched dependability and flexibility with our customized over-the-road trucking solutions. We have access to the equipment and capacity you need, no matter how exceptional your shipment is.

Our professionals match your freight with the right vehicle and the right route, with the ability to restructure resources if conditions change.

- Flexible, non-asset based solutions
- Dry Van, LTL, Refrigerated, Flatbed, TOFC
- Short-haul regional capacity
- Drop Trailer Pools
- Diverse equipment for any kind of shipment
- Branch network with local access to global capacity

AIR FREIGHT

We offer total solutions in sea-air, air-sea and air-air services, with consolidation on all major trade routes. We are fully equipped to handle charters for special projects, oversized cargo and dangerous goods. Each shipment is handled with care by our expert staff so that your goods reach you safely.

Our strong network of strategic hubs in the region enables us to offer multimode options to and from various parts of the world offering dedicated container freight stations at each hub to expedite container handling for fast onward connections.

- Freight forwarding to arrival airports or
- Door to door delivery
- Urgent consignments
- Cargo Pick-up / Delivery Services
- Personalized customer service units
- Cost effective air combination
- Contract with major international carriers

SEA FREIGHT

We offer efficient sea freight solutions customized to your needs. From Full Container Loads (FCL) to Less than Container Loads (LCL), on all major global routes, with guaranteed transit times.

Our extensive array of ocean freight services include assisting with expediting urgent shipments and managing large volume shipments, as well as intermodal transport solutions. We work closely with an extensive portfolio of global and regional carriers so that you have a wide selection of carriers to choose from.

- FCL, LCL and Break Bulk booking services Door to Door delivery
- On-dock and Off-dock cargo stuffing facilities
- Offer economic rates
- Confirmed space allocation with all major shipping lines
- Efficient staff at customs and port zone Highly skilled professionals
- Cost effective sea combination

RAIL FREIGHT

We are one of the highly acclaimed companies that offer a wide compilation of Railway Logistics & Bulk Parcel Boarding Services. These services are well-scheduled and rendered on time as per the requirements by our honoured patrons. Together with this, our crew of qualified personnel offers these services at pocket friendly rates to our patrons according to their necessities needs.

CUSTOM CLEARANCE

We ensure smooth and easy customs clearance for all our customers, so that they receive their goods on time. Our Customs Team help ease Import and Export regulations and paperwork in record time for all of your shipments. Handling all the trade compliance and procedures, we help clear consignments by sea, land and air more efficiently.

- Custom Clearance Services
- Committed to achieve customer satisfaction
- Highly efficient working procedures
- Experience in handling different commodities
- Complete documentation

PROJECT LOGISTICS

- India's fastest emerging company for project forwarding and crane rental.
- Innovative project solutions introduced for multiple sectors (petrochemicals, oil and gas, power, engineering and infrastructure, etc.) through its owned and/or controlled fleet of equipment.
- Multifaceted project team on ground with rich experience across the Indian subcontinent and other nations.
- Complete adherence to QHSSE standards

At the helm of path-breaking engineering and lifting expertise, we have shaped the nation's progress with our ingenious solutions.

Our aim is to help our clients increase their installation efficiency with the help of our lifting and transport solutions.

The Edge of our Project Logistics Services:

- Credible Solutions
- Projects feasibility consultation and reconciliation
- Multimodal transportation – Road and Barge
- Jetty Design Construction and Engineering
- Factory-to-foundation solutions
- Strong track record of working with Large Infra and Oil & Gas Project Clients
- Logistics solutions for complicated and critical loads

BUYERS CONSOLIDATION

When sourcing internationally, a company often purchases materials from more than one vendor in an area. Through our extensive global network, we can consolidate multiple shipments from various sources for one or a group of customers.

Depending on the terms of sale, the supplier can either deliver directly to our warehouse, or call us to arrange pick-up of the goods from their premises. We can build greater volumes that result in reduced carrier rates, including:

- Less-than-Container Load Shipment (LCL)
- Full-Container Load Shipment (FCL)
- Personalized Consolidated Containers (PCC)

SPECIAL TAG LINES

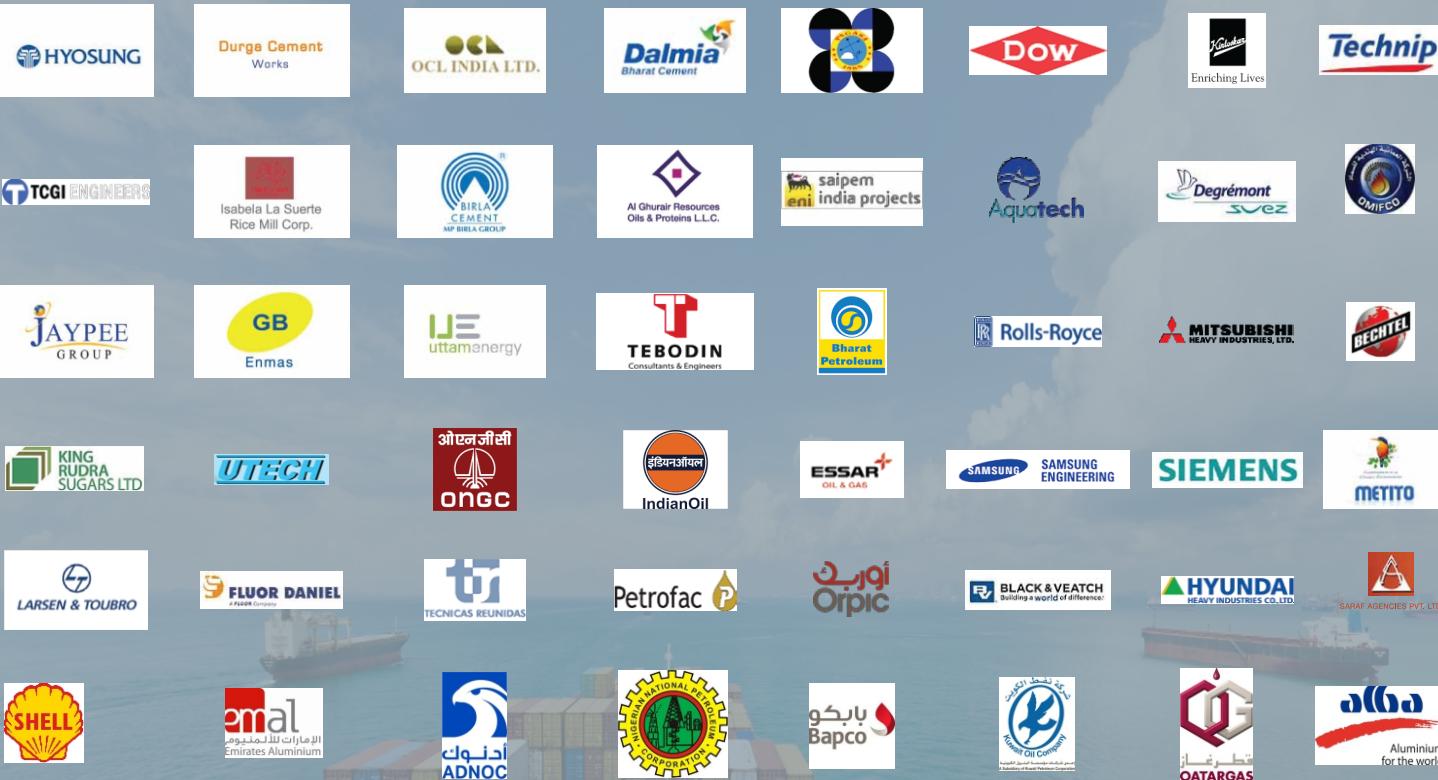

The experience and expertise put into designing the end-to-end solutions, backed by the latest technology.

SO YOU PROFIT FROM EVERY MOVE
